

SCHEDULE K: SERVICE DEFINITION FOR MULTI-CHANNEL RECORDING SERVICE

1. Multi-Channel Recording Service Description

The Multi-Channel Recording Service offering provides a centralised, cloud based, recording solution. It enables the features and functionality to record voice calls, video calls, instant messages and screen shares when utilising Exponential-e's TCaaS service offering and record voice calls when utilising Exponential-e's Hosted PBX Service. Through a series of collector software, calls, messages and screen shares are captured and moved to the centralised recording platform on a real-time basis for processing and storage. A number of additional features and services are also available to provide Quality Assurance Call Scoring, QA Randomizer, Workforce Optimisation and Reporting and Analytics.

The Multi-Channel Recording Service offering will consist of one of the following mandatory licenses:

Mandatory Licenses	Description
Microsoft Teams Enterprise Voice License	Multiple end point voice recording license supporting MS Teams soft client (Windows and Mac), MS Teams desktop phones, MS Teams mobile client. Includes: playback license, unlimited storage and MS Teams compliance rules. Priced per user.
Hosted PBX Enterprise Voice License	Multiple end point voice recording license for the HPBX Service. Supports HPBX desk phones and soft clients. Includes playback license and unlimited storage. Priced per user.
CCaaS Enterprise Voice License	Playback and unlimited storage for voice recordings generated from the CCaaS service.

The following add-on licenses can be purchased when using the Multi-Channel Recording Service in conjunction with Exponential-e's TCaaS offering:

TCaaS Add-On Licenses	Description
Microsoft Teams Chat Add-on	Chat add-on for Microsoft Teams Enterprise Voice License
Microsoft Teams Screen Share Add-on	Screen share add-on for Microsoft Teams Enterprise Voice License

Exponential-e shall use reasonable endeavours to give the Customer not less than 24 hours' notice of any planned works on the Multi-Channel Recording Service.

2. Target Service Commencement Date

Multi-Channel Recording Service 30 Working Days*

* From order acceptance

3. Multi-Channel Recording Service Level Agreement

The Target Availability Service Level for the Multi-Channel Recording Service is as follows:

	Target Availability
Multi-Channel Recording Service	99.99%

No SLA will be honoured nor service credits offered when the Customer uses the portal to make destructive or semi-destructive changes to the Service including, but not limited to: disabling or pausing recordings, deleting audio files or changing user profile settings.

Service Credits

	Measure	Service Credit*
Availability	>0.1 Below Target	5%
	>0.5 Below Target	10%

** The service credit is applied as a percentage of the fixed Monthly Charge for the Multi-Channel Recording Service for the affected Customer Site only (not including analytics or storage spend).*

5. Data Processing

When Exponential-e provides Multi-Channel Recording Service, this may result in Exponential-e Processing Customer Personal Data. The following applies to the Processing of such Personal Data by Exponential-e:

Subject Matter of Processing

Phone numbers, call records, email addresses, passwords/codes and usernames used in conjunction with the Service and/or Service portal.

Nature of the Processing

Storage, collection and reporting.

Location of Processing

The Processing will take place within the UK and/or EEA.

Appropriate Technical and Organisational Measures

With respect to the requirement set out in the General Terms in Clause 10.15 at point (ii), the Customer agrees that as far as it is concerned the security measures set out in the Contract and Exponential-e’s maintenance of the ISO27001 (Information Security Management) standard or any replacement or equivalent of either subsisting from time to time (the “Security Measures”) fulfils the requirement of appropriate technical and organisational measures and the Customer agrees not to contend otherwise, recognising that the Charges for the Multi-Channel Recording Service directly relate to the Security Measures to be applied.
