

**SCHEDULE A: SERVICE DEFINITION FOR DIAGNOSTICS SERVICE****1. Diagnostics Service Description**

Exponential-e's Diagnostics Service provides the Partner with one (1) Man-Day on site Cyber Security Consultant (CSC) resource. The CSC will conduct a high-level security risk assessment of different areas of the End User's business, including but not limited to, HR, IT and Finance for perceived security weaknesses. Within two (2) weeks of the completion of the assessment, the End User will be provided with a high-level report containing information about the End User's security infrastructure, with the perceived risks rated against an industry-standard severity scale. The Partner acknowledges that due to the sensitive nature of the engagement, security information regarding the End User won't be shared with the Partner.

**2. Target Service Commencement Dates**

No Target Service Commencement Date applies. The Parties shall agree in writing, following Order acceptance, a mutually-agreeable date for the Diagnostics Service on-site visit to be held; which shall in any event occur within three (3) months of the date of Order acceptance.
